

## **A Journey into American History: Book I Introduction**

This is the first level of The Knights Party Youth Corps Crusader training. You have taken a bold step by embarking on an adventure into your ancestry. You no doubt desire one day to become a Knight. When you reach the age of eighteen you will first be given the rank of Klansman or Klanswoman. Then, after additional study, you can achieve the rank of Page. After Page is the rank of Squire. And then finally after a thorough exam you will be awarded the prestigious rank of Knight. It will be something to be very proud of.

As a Crusader in The Knights Party Youth Corps you are to be congratulated on your courageous decision to take a stand for your race, faith, and homeland! We understand there is enormous pressure upon the youth of today. The white youth of the world are of minority status. Therefore, it is extremely important that we work for the protection and advancement of our people.

The Bible says that where there is no vision the people shall perish (Proverbs 29:18). We believe that many of the problems our white brothers and sisters face is a direct result of this. Because they have been taught lies about the history of their people, they can't envision a bright future for the white race. White people are ridiculed and made fun of. History books tell false hoods about the white race. They are made out to be villains. Many of the problems of the world are blamed on white people. White people are made to feel guilty. Yet, no one wants to point out the many accomplishments of the white race.

As a Crusader it will be your duty to learn about the glorious heritage of the white race. You will be given tremendous insight into subjects that are ignored in schools today. You will awaken to a new found appreciation of your forefathers and foremothers and you will learn to have a spirit of gratitude for the sacrifices they made for you. Remember, Crusader, the future belongs to you. Lets work together to make the most of it!

**My Son, hear the instruction of thy father, and forsake not the law of thy mother - Proverbs 1:8**

The Bible verse above may not seem to have anything to do with the study of the white race. And what, you may ask, does it have to do with the White Christian Foundation of America? The answer is that the Bible verse above has plenty to do with the subject we are going to study. As we will soon learn, America was founded by white people and for white people. And even more than that, it was by White CHRISTIAN people.

Most of the time when preachers talk about this Bible verse in church they will use it during a sermon at Fathers Day or Mothers Day. They will tell you how important it is to obey your mom and dad. They will point out how much your mother and father loves you and that the rules parents give are for your own. They are right. Responsible parents will set rules and guidelines intended to help you live healthy and happy lives.

Well, this Bible verse is intended for more than just telling young people about obeying mom and dad. We should be encouraged to look back to the traditions of our forefathers. We won't say that they were always perfect. No one but Jesus ever lived a sinless and perfect life. But, it is true that by following the instructions of the fathers before us and the law of our mothers before us, that we could live happier lives.

However, we should also consider the early laws of America. The instructions and laws of our white Christian ancestors helped to make America a great Christian nation. It is important that individuals follow the laws of God, but it is also very important that the nation or government follows the laws of God.

In this first level we will look at the early instructions and laws of our nation. We will learn that America was founded as a White Christian nation. The whole purpose of America was to have a country for white Christians. If our people want to have a happy and prosperous country again then we should all look back at the vision of our ancestors and learn from their instructions and laws. Why should we learn from their instructions and their laws? It is because their instructions and their laws were based on the laws of God. You can't have a better nation than when the people are obeying the laws of God.
